PANTELLERIA

e
coste-ghirlanda

Hello from Sikelia Luxury Retreat.

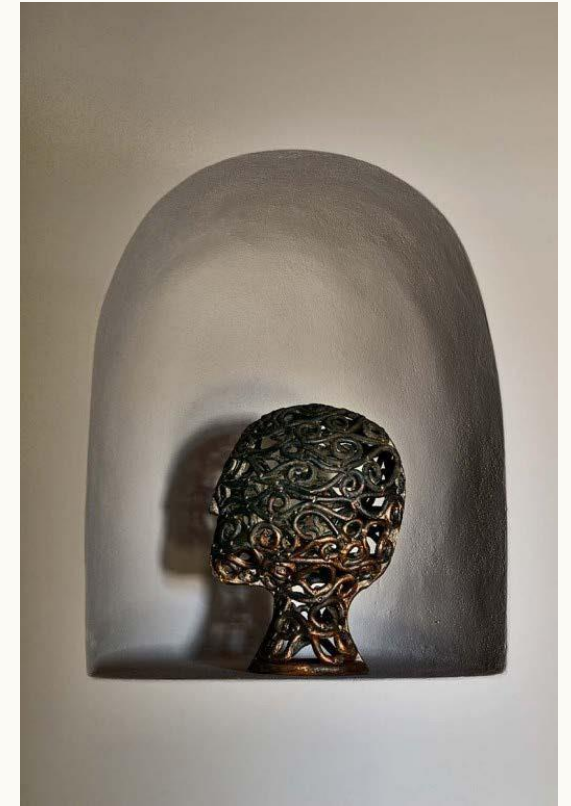

Like Pantelleria, Sikelia is an exclusive and timeless place. A location composed of outdoor and indoor spaces, roofs and terraces. A palm grove of a green so unusual compared to our terrain creates an elegant contrast with the white roofs of our dammusi, from which you can admire a different sunset every evening that sets on the horizon in front of the Tunisian coast.

Sikelia would allow guests to enjoy the utmost privacy and a service created tailored to every type of event, whether it be an aperitif on the rooftops, a reception or an exclusive party usually the night before the wedding.

Sikelia can also most certainly host the wedding party and their closest family members and guests. We have a total of 20 Suites that all have king size beds and some of our Suites have one or in some cases two additional beds which makes for a possible total of 49 guests. If you would require additional accommodation, we would have the pleasure to reserve private luxury villas - dammusi - for the guests in proximity of Sikelia.

A wedding in Pantelleria usually involves several evenings to entertain guests. We are pleased to propose - in combination with Sikelia Luxury Retreat - Tenuta di Coste Ghirlanda (costeghirlanda.it), our Wine Estate, not far from Sikelia. They are two very different locations but united by the desire for refinement and with a strong link with the surrounding nature.

The outdoor lounge immersed in the vineyards of Coste Ghirlanda dominates the plain below, with a 360-degree view that embraces the hinterland with its vineyards, its contrasts and its scents. An ancestral, magical and isolated place to track the sea to the horizon. A place in which to share the fruits of our heroic cultivation combined with the evocative flavors of our land, while the absolute silence of the valley merges with laughter and festivities.

The estate offers three different locations where you can have an aperitif - dinner - cut the cake (with a possible "dancing" continuation), allowing guests to enjoy the whole Estate walking through the vineyards, moving from one place to another, following a path made of candles through the vines and under African starry skies.

Our suggestion is to have a cozy first night of cocktail hour and Sicilian appetizers with our guests as a “welcome aperitif” at Sikelia, and have the wedding ceremony the next day with a more formal, beautiful dinner reception and live music entertainment in our Wine Estate Coste Ghirlanda. The scenic “Imperial table” can host up to 120 guests.

You could wrap the last day with farewell breakfast or brunch with good live music somewhere “sunny and happy”.

Pantelleria offers unique options for both Catholic ceremonies and civil ceremonies which we are happy to explore with you.

There are some very beautiful churches in Pantelleria however, as per local customs here on the island, churches are tiny and can only accommodate around 20 people. It is traditional in Pantelleria for only the bride, the groom and the closest family members to be inside the church while the rest of the party waits directly outside to celebrate the union.

If you wish to have a civil ceremony, we can propose either Coste Ghirlanda or many other beautiful locations around the island.

We have staff entirely dedicated to the organization of weddings that takes care of all the aspects of the event, from flowers to the preparation of the table, food&wine, music and much more.

Our staff is ready to dynamically combine all the spaces at our disposal to create the ideal atmosphere for an unforgettable wedding.

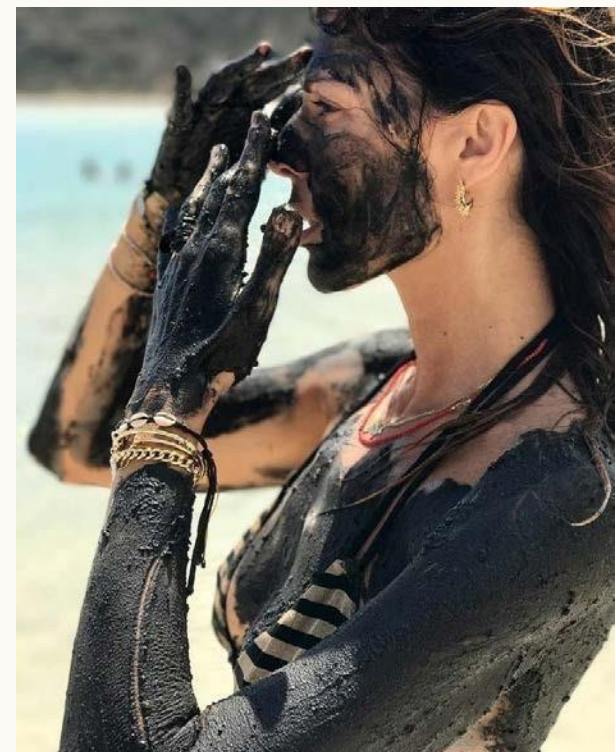

See our dedicated website:
pantelleriaeventi.com

There are also many activities and tailor-made experiences we can also propose and create for our guests to add more unforgettable experiences to the wedding events program – whether it be a visit at Lago di Venere (“Venus Lake” with natural therapeutic muds) or a private boat outing with dinner served on board cooked by our Chefs while watching the sunset behind Tunisia from the blue waters of Pantelleria.

We could also arrange for the boat to be at their disposal for the duration of their stay at Sikelia.

We are at your complete disposal to create and quote which ever type of experience you desire to have. In fact, do you have any special requests or desires that you would like to make known from the start?

We are pleased to offer the opportunity to create precious memories of unforgettable experiences that only Pantelleria can give. The agricultural techniques used to cultivate our vines are the only ones worldwide recognized as UNESCO heritage; how not to taste the fruits of the hard work of this heroic cultivation dating back to the time of the Phoenicians?

And where else in the world will one be able to enjoy the fruits of our labor, “nectar of the gods” in the privacy of our Estate, at sunset in the warm waters of Gadir’s thermal springs, or watching the sea merging with the horizon right on the water?

These are just some initial ideas of what we can propose and quote. Please also refer to our experiences file, which should give you a good general idea regarding the kinds of activities we can propose and organize.

Please click on the following link to access the hidden download area on our website (which is usually reserved to journalists and media) from which you can download our Hotel Brochure, Experiences file, photos and videos.
